

## D'Ornano + Co. Names New Partner

*Adrien d'Hauthuille has been promoted to partner to support rapid firm growth*

**October 12, 2023, New York** – D'Ornano + Co., a global strategic investment advisory firm pioneering Hybrid Growth Diligence (HGD), today announced that Adrien d'Hauthuille has been promoted to partner.

*"I am proud of Adrien's continued growth and leadership at D'Ornano + Co.," said Raphaëlle d'Ornano, Founder and Managing Partner of D'Ornano + Co. "His dedication, expertise, and unwavering commitment to the firm has been instrumental to our continued success, and a major driver of our rapid growth."*

In his new role, Adrien will support the continued global growth of D'Ornano + Co. and HGD. D'Ornano + Co. launched HGD in September 2022. HGD is a better way to assess high-growth and disruptive assets. It represents a new category of analysis to reflect GenAI, digitalization, and sustainability megatrends currently reshaping the business landscape. The firm pioneered HGD because legacy assessment frameworks for businesses impacted by these trends do not capture the intrinsic value and resilience of these rapidly evolving assets.

*"I am honored by this career milestone and proud of the work we are continuing to produce at D'Ornano + Co. I look forward to continuing to provide investors with superior insights into disruptive assets," said Adrien d'Hauthuille.*

Adrien first joined D'Ornano + Co. in 2018. He then spent 2 years co-founding Click&Savour, where he notably was CFO and Head of Data. Adrien returned to D'Ornano + Co. in 2022 as an Associate Partner on the team in the Paris office. Adrien holds a Master of Management degree from HEC Paris.

### **About D'Ornano + Co.**

D'Ornano + Co. is a global management consulting firm operating at the intersection of strategic consulting and transaction advisory, leveraging our deep technical understanding to help investors with the capital and influence to change the world to critically assess high-growth and disruptive business models.

The firm recently pioneered **Hybrid Growth Diligence (HGD)**, a multi-disciplinary way for investors and strategic acquirers to assess the intrinsic value and resilience of high-growth and disruptive assets shaped by tech, decarbonization and sustainability.

D'Ornano + Co.'s methodology layers due diligence over a proprietary framework that determines relevant financial, operational, legal, and sustainability KPIs, benchmarking growth against expected development stages and supporting its client's ability to uncover hidden risks and opportunities. Beyond due diligence, this strategic analysis helps investors monitor and refine portfolio companies' trajectories and adequately transform business models, creating more value and delivering superior results at exit.

Working across all investment stages (from Early-stage to large-cap Buyouts), D'Ornano + Co. supports its clients globally and has hubs in Europe and North America.
